

INDUCTION MOTOR

Product Features & Performance

- High performance Efficiency & Energy saving
- Modular Design, slight vibration with low noise
- Wider operating frequency, high starting torque, and less inertia
- Reduced copper loss with increased longevity
- With High control accuracy & less fault
- Ambient Temperature : $15^{\circ}\text{C} \leq 0 \leq 40^{\circ}\text{C}$
- Altitude not exceeding 1000 m
- Rated Voltage between 220 -760 V
- Rated frequency : 50 Hz, 60 Hz
- IP degree : IP55
- Fast & Accurate dynamic response
- Stable torque & Rotating Speed
- Color : As per Customer needs

APPLICATION:

Widely used in air compressors, pumps, water machine, Automation Equipment, High efficiency energy saving fan, etc.

Note: ★ All our motors are custom built to order.
